

## Business Software Engineer

Are you ready to face new and interesting challenges every day? Are you ready to join a fast-growing start-up? Do you want to improve the life of people?

We are looking for a creative and energetic **Business Software Engineer**.

**IBISA's mission** is to unlock access to insurance globally, especially in agriculture, and for those who need it most. We are building the future of insurance and innovating in products and distribution models thanks to using cutting edge technologies efficiently.

Our motto is 'Simple and Efficient'.

IBISA's team is very diverse and from different countries and backgrounds. We strive to create an entrepreneurial work environment where we bring out the absolute best in each other. We push ourselves to improve and grow constantly.

Communication, transparency and honesty are key in our culture.

## ROLE DESCRIPTION

Your Job: Business Software Engineer

Location: Luxembourg (with Home Office)

Experience: Engineering degree or equivalent

As a start-up, everyone has to be hands on. You will have technical and business analyses responsibilities.

Quite classical, the technical responsibilities will be the following:

- Participating in the development of IBISA software constellation. We have 2 main technological stacks, the web application one (NodeJS, TypeScript, React, MySQL) and the data processing one (Python, Dash, Flask, PostgreSQL). You will need to be familiar with one of those stacks.
- Participating in the development of IBISA general architecture. IBISA is cloud based (AWS and Google Cloud), dockerised, all in continuous development and integration.
- Be accountable for the quality and reliability of our platforms (unit testing, etc.)

The business analysis responsibilities will be :

- Participating in discussions with our clients all over the world (India, Philippines, Ghana, Kenya, Guatemala, etc.). Understand their needs and how they utilise our tools. Propose improvements, design a mock-up.
- Accompany our clients in utilising the tools: training, Q&A, etc.
- Work with different teams within IBISA, mainly the project managers and the actuarial team.

All our projects and activities are done in Lean Start-up (Agile) methodology.

## REQUIREMENTS

Do you have a good knowledge of software development and IT but you do not want to do only that, and keep the context with the field and the user?

Do you like to interact with users, communicate and teach?

Do you like to solve problems, design solutions and propose ideas?

On top of it, you do not have problems working in English, or working in Luxembourg?

Are you autonomous and a bit entrepreneur?

Then you have what we need!

## JOIN US!

- ★ A unique opportunity to be part of a fast-growing startup that will change the world for the better!
- ★ Flexible working environment, as long as you get done what needs to get done, you can organize it in the way that works best for you.
- ★ Work with disruptive technology and solve problems that have never been solved before!
- ★ Pass our final test in our favourite Cuban bar!

What are you waiting for?
